Art.-Nr. 05-90120
Aluminium Crêpes Spreader

Description

The crêpe spreader made of aluminium is used for even, thin batter distribution on the crêpe plate in professional catering. Thanks to the aluminium material, the spreader is particularly hygienic and easy to clean – especially for use in public sales areas.

- Material: aluminium – particularly hygienic and easy to clean
- Width: 18,2 cm
- Length of the handle: 18,3 cm
- Rod diameter: 10 mm

Technical data

Width x depth x height:	182 x 192 x 10 mm
