Art.-Nr. 06-50753-00

Automatic Pasta Cutter Ø 50 mm for Neumärker Pasta Machine PF25E

Description

The automatic pasta cutter is the ideal addition for Neumärker pasta machines of the PF series and enables precise, uniform cutting of freshly extruded pasta. The electric cutting system is mounted directly at the extrusion outlet and ensures consistently even pasta lengths with minimal manual effort. Perfect for professional applications where efficiency, repeatability and product quality are essential.

Automatic pasta cutter for noodle machines & pasta machines:

- Precise and clean cutting of freshly extruded pasta.
- Consistent pasta lengths for uniform results.
- Infinitely adjustable cutting speed.
- Direct cutting at the extrusion outlet.

Increased efficiency for foodservice & pasta production:

- Automatic cutting significantly reduces manual effort.
- Ensures consistent lengths even at higher output levels.
- Ideal for standardized production in foodservice and artisan pasta production.

Accessory for Neumärker pasta machines of the PF series:

- Easy retrofitting on compatible pasta machines.
- Suitable for PF series (depending on model Ø 50 mm / Ø 57 mm).
- Mounting directly at the extrusion outlet.
- Designed for professional use in foodservice and production.

Technical data

Electric power:	20 W
Voltage:	230V
Supply frequency:	50HZ / 60Hz
Width x depth x height:	120 x 120 x 232 mm
Net-weight:	1 kg
