Art.-Nr. 05-70573

Design Cooling Display Integra IN60/50-140 | With base

Description

The Intergra design cooling display combines a modern look with powerful cooling for an attractive presentation of food and desserts.
The high-quality double glazing ensures a clear view of the products and makes cleaning easier in daily use. LED-lit glass shelves showcase the products perfectly, while the ventilated cooling system ensures an even temperature throughout the interior. Ideal for professional use in cafés, bakeries and catering environments.

- Double-glazed.
- Glazing without visible screws to facilitate cleaning.
- Touch-screen thermostat.
- Long-life LED lighting under each shelf for a uniform light of the interior.
- Sliding doors on the back.
- Powerful cooling unit for reliable cooling.
- Ventilated cooling +2° to +6°C in the whole interior (at an ambient temperature of 21°C).
- Castors with fixing brakes.
- 2 height-adjustable shelves made of safety glass.
- Height of the Display 515 mm.
- Energy efficiency class: B (scale A-G).
- Annual energy consumption: 1048 kWh/year.

Technical data

Electric power:	250 W
Voltage:	230V
Supply frequency:	50Hz
Width x depth x height:	600 x 600 x 1400 mm
Net-weight:	110 kg
