Art.-Nr. 05-00867
Grill Oven Formula Grill XS

Description

Particularly space-saving convection grill oven with innovative combination of technologies. For easy, extremely quick and precise preparation to the point.
Perfect for quick cooking of food, gratinating and baking snacks:

- Express Cooking mode: Ideal for quick cooking of meat, fish, vegetables in the shortest time
- Finishing mode: Perfect for gratinating and regenerating pre-cooked food
- Snack mode: For baking pizza, focaccia, sandwiches, baguettes, etc.
- Best results thanks to the combination of different cooking methods: convection, infrared radiation and contact heat
- The convection heat with hot air flow distributes the heat in the baking chamber and ensures even cooking
- The infrared radiation reaches deep into the food and heats it from the inside as well
- Contact heat on the solid cast iron grid or on the griddle plate for crispy results, roasting flavours and a beautiful grill pattern on the food
- The spacious water tray catches dripping fat and reduces smoke developmenty
- Intuitive, user-friendly operation with touch display
- Large selection of pre-saved recipes in 4 categories: Meat, fish, vegetables and more
- Customisation of recipes
- Fresh Air System: innovative ventilation system with constant air exchange instead of recirculation. This facilitates cleaning due to fewer fat particles, there is less smoke development and it preserves the fresh flavour.
- Small footprint: Ideal for small kitchens in bistros and cafés
- Stainless steel casing
- Internal dimensions GN 1/2
- Incl. roasting tray made of glass GN 1/2, enamelled cast iron grill grid GN 1/2, grid lifter, pizza peel, water tray GN 1/2 and grill brush with brass bristles

Technical data

Electric power:	5,6 kW
Voltage:	400V
Supply frequency:	50Hz
Width x depth x height:	420 x 600 x 690 mm
Net-weight:	55 kg
