Art.-Nr. 05-10304
Warming Display Panorama 3

Description

- stainless steel
- temperature range 20°-90°C
- 3 levels of 600 x 400 mm
- suitable for GN
- interior size 750 x 460 x 360 mm
- ventilation for even heat distribution
- fire brick as heat storage when the doors are open
- water container
- humidity control prevents the food from drying out
- on/off switch
- ventilation separately switchable
- pilot lights

Technical data

Electric power:	1,2 kW
Voltage:	230V
Supply frequency:	50Hz
Width x depth x height:	780 x 490 x 480 mm
Net-weight:	30 kg
