Cooling Display Logic Plus 6P 2026

Description

The Cooling Display Logic Plus 6P 2026 is the ideal solution for professional cooling and attractive presentation of fresh food at the point of sale. Whether tapas, cheese, desserts or salads – the combination of modern glass technology, even ventilated cooling and high-quality design ensures maximum product visibility while maintaining optimal freshness. Thanks to its well-designed construction, energy-efficient glazing and easy cleaning, this display case is perfectly suited for daily use in foodservice, bakeries or delicatessen shops.

Refrigerated display for foodservice & point of sale:

- Refrigerated display case for cooling and presenting tapas, cheese, desserts, cakes, salads, fruit or vegetables at the point of sale.
- Modern full-frame design with 100% glass front for maximum product visibility.
- Clean sides and front panels without visible screws, featuring a seamless glass finish.
- Long-life LED lighting on both levels for maximum attention.

Professional and efficient ventilated cooling technology:

- Ventilated cooling from +4°C to +8°C throughout the entire interior (at 21°C ambient temperature).
- Downward airflow with particularly gentle air circulation to prevent food from drying out.
- Digital temperature display.
- Double-glazed sliding rear doors, removable for especially easy cleaning.
- Double glazing to reduce energy consumption and condensation.

Technical details:

- Flat base plate.
- Height-adjustable intermediate shelf made of tempered glass.
- Panels made of tempered glass.
- Extremely compact compressor for minimal space requirements.
