Art.-Nr. 10-90093N-00

Laser engraving for wooden cutlery | Forks, knives, spoons and wooden sticks with your logo

Description

Custom engraved disposable wooden cutlery made from birch wood combines sustainable materials with effective brand communication. Your logo or message is precisely laser-engraved onto the handle, making your brand visible with every use. Ideal for gastronomy, events and takeaway concepts that value strong branding and customer recognition.

Custom engraved disposable birch wood cutlery:

- Customisation of disposable wooden cutlery from the Neumärker birch wood cutlery range.
- Suitable for forks, knives, dessert spoons and wooden spatulas.
- Natural engraving look thanks to fine contrast in the wood material.
- Implementation of logos, lettering or simple graphics.
- Each piece of cutlery acts as a high-quality brand ambassador.

Applications for branded wooden cutlery with logo:

- Ideal for restaurants, catering, food trucks and takeaway concepts.
- Perfect for corporate events, trade fairs, promotions and events

Technical Details:

- Add-on article only available in combination with matching wooden cutlery.
- Precise laser engraving directly onto the cutlery handle.
- Durable and abrasion-resistant.
- Function, stability and feel of the cutlery remain unchanged.
- Technical implementation and placement of the engraving are carried out after consultation.
- Engraving according to customer-provided template
- Minimum order quantity 5,000 pieces
