Art.-Nr. 10-10563

Warming Lamp Tibet N125 Innovation

Description

The renowned and widely proven Tibet series heat lamps stand for professional food warming combined with high-quality presentation.
Developed for everyday use in gastronomy, buffets and catering, they combine functional design with robust quality and ensure even and reliable heat performance.
Whether at the pass, on the buffet or in front cooking – Tibet heat lamps keep food at the optimal temperature while presenting it in the best possible way.

- Professional heat lamps for foodservice & buffet: Even heat distribution for optimal food temperature and quality. Ideal for use on buffets, at the pass or in front cooking. Perfect for meat, side dishes, snacks and other hot foods.
- Functional design & flexible application: Flexible arm for individual positioning of the heat spot. Targeted heat output for efficient and energy-saving operation. Supports an attractive and sales-promoting presentation.
- Durable quality for daily use: Sturdy construction for continuous professional use. Easy-care surfaces for simple cleaning. Designed for gastronomy, catering and high-traffic applications. Flexible arm protected by a hygienic plastic hose.
- Technical details: Lamp shade made of non-ferrous metal. Durable matt black powder coating outside. Gold-coloured coating inside. Golden flexible arm. Colour: Black / Brass / Gold. 1 heat lamp. Incl. infrared bulb (white light).

Technical data

Electric power:	250 W
Voltage:	230V
Supply frequency:	50Hz
Width x depth x height:	220 x 220 x 400/850 mm
Net-weight:	8 kg
