## Grill Oven Formula Grill XS

### Description

Particularly space-saving convection combination of technologies. For easy precise preparation to the point. Perfect for quick cooking of food, grilling snacks:

Express Cooking mode: Ideal for meat, fish, vegetables in the shortest time

Finishing mode: Perfect for gratinatin pre-cooked food

Snack mode: For baking pizza, focaccia baguettes, etc.

Best results thanks to the combination of methods: convection, infrared radiation

The convection heat with hot air flow in the baking chamber and ensures even cooking

The infrared radiation reaches deep inside from the inside as well

Contact heat on the solid cast iron grill for crispy results, roasting flavours and a beautiful grill pattern on the food

The spacious water tray catches dripping fat and reduces smoke development

Intuitive, user-friendly operation with touch display

Large selection of pre-saved recipes in 4 categories: Meat, fish, vegetables and more

Customisation of recipes

Fresh Air System: innovative ventilation system with constant air exchange instead of recirculation. This facilitates cleaning due to fewer fat particles, there is less smoke development and it preserves the fresh flavour.

Small footprint: Ideal for small kitchens in bistros and cafés

Stainless steel casing

Internal dimensions GN 1/2

Incl. roasting tray made of glass GN 1/2, enamelled cast iron grill grid GN 1/2, grid lifter, pizza peel, water tray GN 1/2 and grill brush with brass bristles
