Art.-Nr. 05-70569

Design Cooling Display Integra DP-60-50 | For Drop-in Installation

Description

The Intergra design cooling display for drop-in installation integrates seamlessly into modern counter concepts and ensures a high-quality, built-in presentation of food and desserts.
The flush installation creates a clean and professional overall appearance directly at the point of sale.
The clear design with large glass surfaces showcases the products perfectly, while LED-lit glass shelves provide even illumination. Combined with the powerful ventilated cooling system, this ensures reliable and uniform temperature distribution throughout the interior. Ideal for customised counter solutions in cafés, bakeries and catering environments with high standards for design and functionality.

- Double-glazed.
- Glazing without visible screws to facilitate cleaning.
- Touch-screen thermostat.
- Long-life LED lighting under each shelf for a uniform light of the interior.
- Sliding doors on the back.
- Powerful cooling unit for reliable cooling.
- Ventilated cooling +2° to +6°C in the whole interior (at an ambient temperature of 21°C).
- 2 height-adjustable shelves made of safety glass.
- Energy efficiency class: B (scale A-G).
- Annual energy consumption: 1048 kWh/year.

Technical data

Electric power:	250 W
Voltage:	230V
Supply frequency:	50Hz
Width x depth x height:	600 x 600 x 515 mm
Net-weight:	75 kg
