

Description

The quietest blender on the market without noise protection cover

Ideal for smoothies, cocktails, milkshakes, frozen coffee

Maximum safety thanks to automatic shut-off when the container is removed and even when the lid is opened

Titanium-coated blade for durability and resistance

Alternately rotating blade optimizes the shredding of ice cubes, nuts and frozen fruits in seconds

9 pre-installed program sequences enable variable blending at different speeds

Speed 0 - 8.000 rpm

Particularly quiet and energy-efficient thanks to brushless, powerful motor

Flexible lid fits perfectly to the container and closes tightly

User-friendly touchpad control panel

Blender jug 2.4 liter total volume, 1.4 liter max. fill level during use

Technical data

Electric power: 1 kW

Voltage: 230V

Supply frequency: 50Hz

Width x depth x height: 197 x 233 x 393 mm

Net-weight: 6 kg
