Art.-Nr. 05-90400
Cooling Display Compak

Description

The Compak cooling display combines modern design with high functionality for the effective presentation of drinks, snacks and packaged foods.
The all-round glass design and LED lighting on every level ensure excellent visibility and an attractive product display.
The ventilated cooling system provides uniform temperature throughout the interior, while sliding doors allow convenient access. Ideal for self-service areas in cafés, bakeries, shops and catering environments.

- Temperature range +4°C up to +8°C (at an ambient temperature of 21°C).
- Digital temperature display.
- Sliding doors on the front and the back.
- Suitable for self-service.
- Long-life LED lighting on every level.
- Lateral lighting for more attraction.
- Boost your sales through ideal visibility of your products.
- Modular design offers possibility to place several units in line.
- Particularly energy-efficient through double glazing.
- All glass panels made of tempered glass.
- Glass shelves height-adjustable.
- Flat top: ideal for integration into counters.
- 2 glass shelves 900 x 360 mm.
- Compressor on the back for optimal space-usage on every shelf.
- Energy efficiency class: C (scale A-G).
- Annual energy consumption: 2220 kWh/year.

Technical data

Electric power:	950 W
Voltage:	230V
Supply frequency:	50Hz
Width x depth x height:	1015 x 620 x 950 mm
Net-weight:	155 kg
