**Waffle Maker Thermocook® incl.  
Waffle Bears on a Stick  
Interchangeable Plates**

**Neumärker®**

## Description

The round teddy faces are great to decorate and shorten baking time. Ideally for children's festivals.

Multifunction appliance for interchangeable plates (Bears on a Stick plates included)

Currently more than 25 different interchangeable plates available, e.g. for waffles, pizza, crêpes, paninis, donuts, sandwiches, churros

Digital timer with large display adjustable up to 99 minutes. An acoustic signal at the end of the cooking time ensures consistent product quality, even with frequently changing plates.

The acoustic signal reminds the user at the right time to remove the food so that it does not burn while the user is performing other tasks at the same time.

Optimal heat transfer: Direct contact between heating plate and interchangeable plate due to 8 screws that are evenly distributed.

New high-performance heating elements with a larger heating surface for even heat distribution without hotspots.

Particularly energy-efficient through optimised thermal insulation: A double shielding minimises heat loss and reduces the risk of serious burns.

Extremely stable frame construction thanks to reinforced supports.

The space of 42 mm between the hot plates and the casing prevents heat accumulation in the appliance and thus extends the service life.

Improved ventilation slots ensure heat exchange in the casing.

Easy cleaning of the accessible surfaces.

Particularly service-friendly design for easy maintenance and repair.
