available, e.g. for waffles, pizza, crêpes, paninis, donuts,  
sandwiches, churros

Digital timer with large display adjustable up to 99 minutes

An acoustic signal at the end of the cooking time ensures  
consistent product quality, even with frequently changing  
tasks

The acoustic signal reminds the user at the right time to  
remove the food so that it does not burn while they are  
performing other tasks at the same time

Optimal heat transfer: Direct contact between heating  
and interchangeable plate due to 8 screws that ensure  
evenly distributed heat

New high-performance heating elements with a large  
heating surface for even heat distribution without hot spots

Particularly energy-efficient through optimised thermal  
insulation: A double shielding minimises heat loss and  
reduces the risk of serious burns

Extremely stable frame construction thanks to reinforced  
supports

The space of 42 mm between the hot plates and the casing  
prevents heat accumulation in the appliance and thus extends  
the service life

Improved ventilation slots ensure heat exchange in the
