Jaffle Maker Thermocook® incl. Disco Snack (Jaffle) Interchangeable Plates

Description

The Neumärker Jaffle Maker Thermocook® incl. Disco Snack (Jaffle) interchangeable plates is the ideal solution for professional snack concepts with maximum flexibility. As a multifunctional system appliance, the Thermocook® allows the use of over 25 different interchangeable plates – from waffles, pizza, and crêpes to paninis, pancakes, and donuts. In combination with the Disco Snack plate, creative jaffles can be prepared quickly, easily, and reliably. A variety of baked goods such as brioche, flatbread, or classic toast provide maximum versatility and enable both traditional and modern snack concepts. One of the most popular options is the Ice Cream Sandwich (croque glacé): golden brown and warm on the outside, with delicately melting ice cream inside – a striking contrast that attracts attention. Ideal for street food, events, cafés, or casual dining concepts. With just one device, countless filling variations can be created – from savory options with meat, cheese, and vegetables to sweet creations with chocolate, fruit, or ice cream. This allows you to expand your offering flexibly and create real variety for different target groups.

Multifunctional system for maximum versatility:

- Over 25 interchangeable plates available, e.g. for waffles, pizza, crêpes, paninis, pancakes, or donuts.
- Quick plate changes for different concepts.
- Ideal for expanding menus without additional equipment.

Precision & process reliability:

- Digital timer with large display (up to 9:59 min/sec).
- Acoustic signal at the end of the cooking time ensures consistent product quality – even with changing staff.
- Prevents overcooking and supports efficient workflows.
- Optimal heat performance & energy efficiency: Direct contact between heating element and interchangeable plate for maximum heat transfer.
- High-performance special heating elements with enlarged heating surface for even results without hotspots.

Technical data

Electric power:	2,8 kW
Voltage:	230V
Supply frequency:	50HZ / 60Hz
Width x depth x height:	320 x 340/530 x 275/655 mm
Net-weight:	15 kg
Size of the waffle:	110 x 110 x 40 mm
Number of waffles:	4

- Double insulation reduces heat loss and increases safety.

Easy cleaning & maintenance:
- Easily accessible surfaces for quick cleaning.
- Service-friendly design for simple maintenance and repair.
- Front panel made of durable, easy-care Autotex polyester.

Maximum flexibility in snack offerings (Disco Snack interchangeable plate):
- Suitable for brioche, toast, flatbread, and other baked goods.
- Perfect for both savory and sweet fillings.
- Ideal for trends such as ice cream sandwiches (warm outside, cold inside).
- Fast preparation for high output.
- Non-stick coating ensures easy handling and cleaning.
- Ideal for to-go concepts and high customer frequency.

High-quality construction & material:
- Interchangeable plates made of solid aluminium with non-stick coating.
- Even heat distribution for optimal baking results.
- Durable and designed for professional use.
- Robust design for professional use: Stable frame construction with reinforced support rails.
- Thermal decoupling between heating plates and housing extends product lifespan.
- Improved ventilation ensures optimal heat exchange inside the unit.

Technical details (Thermocook®):
- Thermostatic control from 0 – 300 °C.
- Digital timer up to 9:59 min/sec with acoustic signal.
- Stainless steel housing.
- Height-adjustable feet.
- Front panel made of durable Autotex polyester.
- Optimized insulation and high-performance heating elements for even heat distribution.
- Incl. power cable with Schuko plug (Type E/F).

Technical details (Disco Snack (Jaffle) interchangeable plate):
- Baking moulds: 4 pieces.
- Dimensions per mould: approx. 110 x 110 x 40 mm.
- Material: non-stick coated aluminium.
- Compatible with Thermocook and Thermocook Twin devices.
