

# Art. Nr. 12-40801DT-LE

Model variant intended for special application scenarios. For limited available electrical capacity on 220–230 V circuits:

Only 1.7 kW power consumption.

Please notice that the standard version with 2.8 kW output per interchangeable plate set provide the best conditions for short heat-up times, stable temperature control and energy-efficient operation.

Multifunction appliance for int (included)

Currently more than 25 different available, e.g. for waffles, pizzas, donuts, sandwiches, churros

Digital timer with large display min/sec

An acoustic signal at the end consistent product quality, even

The acoustic signal reminds to remove the food so that it does not perform other tasks at the

Optimal heat transfer: Direct contact and interchangeable plate design evenly

New high-performance heating surface for even heating

Particularly energy-efficient thermal insulation: A double shielding reduces the risk of serious burns

Extremely stable frame construction thanks to reinforced supports

The space of 42 mm between the hot plates and the casing prevents heat accumulation in the appliance and thus extends the service life

Improved ventilation slots ensure heat exchange in the casing

Easy cleaning of the accessible surfaces

Particularly service-friendly design for easy maintenance and repair

Front panel with display made of easy-to-clean and durable Autotex polyester

Thermostatic control 0 - 300°C

Pilot light

On/off switch

Stainless steel casing

Height-adjustable feet

Incl. power cord Schuko (Type E/F)

## Technical data

Electric power: 1,7 kW

Voltage: 230V

Supply frequency: 50Hz / 60Hz

320 x 340/530 x 275/655 mm

9 kg
