

Description

- stainless steel
- temperature range 20°-90°C
- 3 levels of 600 x 400 mm
- suitable for GN
- interior size 750 x 460 x 360 mm
- ventilation for even heat distribution
- fire brick as heat storage when the doors are open
- water container
- humidity control prevents the food from drying out
- on/off switch
- ventilation separately switchable
- pilot lights

Technical data

Electric power: 1,2 kW

Voltage: 230V

Supply frequency: 50Hz

Width x depth x height: 780 x 490 x 480 mm

Net-weight: 30 kg
