

Description

for the slow and gentle preparation of food
very precisely adjustable preparation processes
temperature range 30 to 120°C
temperature setting in 1°C steps
with warming function
separately adjustable core temperature probe
ideal heat distribution by heating from all 4 sides
additional insulation for best energy efficiency
digital control panel with timer and display of cooking chamber
temperature and core temperature
rounded corners in the seamless cooking chamber for easy
cleaning
door hinged on the right (reversible)
side handles
suitable for trays with 1/1 GN or 600x400 mm
incl. stainless steel tray

Technical data

	Electric power:	1,2 kW
	Voltage:	230V
	Supply frequency:	50Hz
	Gas power:	'0'
	Width x depth x height:	495 x 690 x 415 mm
	Net-weight:	24 kg
	Number of waffles:	'0'
